B—SPILL REPORTING FORM

C-- ANSWERS

MTCS ORDER FORM –02a	5920 Nall, Suite 303
	Mission, Kansas 66202

SPCC Workbook was developed to provide the information to the responsible official to understand their responsibilities and provide training for the organization. We have developed this workbook after completing over 180 SPCC Plans in four years.

We recommend each facility have the workbook to conduct annual training of employees required by EPA. (40 CFR 112.7) Training is in the top ten citations when EPA visits companies.

The workbook is over 60 pages of information, illustrations, employee involvement questions as well as employee test. This workbook will provide training for the manager of the SPCC Plan, as well as, all employees that might respond to a spill.

This book was reviewed, updated and an additional three chapters including Fire Extinguishers, UST Spill Prevention Methods and State Fire Marshal Requirements.

Send this form to MTCS, If you have any questions, please call 913-432-4022.
